Marquis Glass

Features

Inspired luxury, Marquis Glass mosaics is something out of the ordinary—1" glass mosaic tile in an extremely elegant striated pattern, featuring six saturated colors with glimmering ribbons of contrasting color. Use on an entire shower wall or kitchen backsplash, or simply use as a decorative liner and inset. Marquis glass will take sophistication and design to a whole new level.

This tile features random variations of shade and texture within each carton. To insure optimum appearance, it is imperative that tiles from various cartons be continually blended during installation. Placement of tiles should be decided on before beginning installation.

*OSHA (Occupational Safety and Health Administration) has established a recognized industry standard of 0.5 (wet and dry) for slip-resistant surfaces. The Americans with Disabilities Act (ADA) recommends, but does not require, "a Static Coefficient of Friction of 0.60 for accessible routes and 0.80 for ramps." ADA does not specifically state that 0.60 is both a dry and a wet requirement. It is important to note that any tile or other hard surface flooring can become slippery when wet or improperly maintained. Products installed in an exterior application must comply with applicable ANSI 108 series of the "American National Standard Specifications for the Installation of Glass tile" and comply with TCA installation methods applicable to installation conditions.

Approved Usage
