Acadian Heights II | Epic Landscapes engineered

Features

Acadian Heights II responds to the rapidly growing trend of wider width hardwood floors. This collection is a 6³/₈" wide premium Hard Maple. Each plank accentuates the subtle maple grain patterns with elegant multi leveled hand planed beveled ends that makes each board a work of art. The combination of the multi-step low gloss staining technique and the time worn texturing creates a rich and unique visual. There are 4 stunning colorations to choose from: Sand Point, Granite Shores, Bar Harbour Brown, and Blackwoods

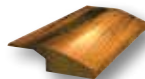

SUBTLE SCRAPED: A light scraping technique gives a time-worn or antique visual, offering a lived-in appeal to your floors. Subtle scraped hardwoods look great in eclectic, modern or traditional settings.
