Natural Stone

Ashford

Features

Combine the desire for a look of sophistication and of generational integrity. The chiseled edged pattern with a honed surface of Ashford emanates a luxurious and organic feel. Soft and earthy hues offer a unique, individually exclusive floor as each stone reflects its own natural characteristics. Ashford patterns itself after the opulence of sensuous textiles by providing a designer pattern on the floor. Create your own one-of-a-kind floor with Shaw's distressed, rich stone fashioned through a combination of sizes: 8x8", 8x16", 16x16" and 16x24".

PIECES NEEDED FOR COMPLETE VERSAILLES PATTERN					
Stone Sizes:			No. of Pieces	Square Feet	Percentage
1.	16" x 16"		4	7.11	44.4%
2.	8" x 8"		4	1.78	11.1%
3.	8" x 16"		2	1.78	11.1%
4.	16" x 24"		2	5.33	33.4%
Total			12	16.00	100.0%

NOTE: One box equals six pieces of various sizes and constitutes one versailles pattern. It takes two (2) boxes of 8 square feet each (16 square feet) to complete a repeating pattern.

Tile Sizes

Field Tile	Color	Style
*one box	Latte 150	CS32H
*one box	Ivory 200	CS31H
*one box	Noce 700	CS31J

* One box equals six pieces of various sizes and constitutes one versailles pattern. It takes two (2) boxes of 8 square feet each (16 square feet) to complete a repeating pattern.

It is important to note that any natural stone hard surface flooring can become slippery when wet or improperly maintained. Unless specifically stated by Shaw Industries, Inc. the use of Shaw Industries, Inc. natural stone is not recommended for exterior horizontal surfaces.

This product can be used in interior wet areas if sealed and maintained properly. The stone look could be altered if not maintained properly. For information about products that can protect the stone from moisture exposure contact your local Shaw hard surface territory manager.

This product may contain dry seams, pits, fossils and glass veins that are filled at the factory or during installation. These are all inherent characteristics of the stone. Since these veins can sometimes lose their fillings, they should be refilled as part of normal maintenance.

A sealer is recommended for all natural stone products.

Note: Natural stone is a product of nature, hence variations in shade and appearance are inherent. Veining and mineral deposits create unique characteristics per stone. Please consider at the time of purchase... No Two Stones Are Alike! Installation constitutes acceptance.

Colors

Premium Grade
Color is true and consistent throughout and represents the truest form of the stone. Little to no veining or surface imperfections are found. Premium Grade offers the most consistent coloration along with the smallest pits.

Select Grade
Majority of the surface is pure with the color remaining relatively consistent throughout the product. Small amounts of discoloration may be seen in a few select tiles. Select Grade offers some color variation and slightly larger pits than Premium Grade.

Classic Grade
Discoloration and imperfections are more pronounced and variation in shading / color exists throughout product. Classic Grade offers high variation from tile to tile and the largest pits.
