Natural Stone

Turnbury

Features

Fashion turned into function. A floor which is characterized by its salience and worn look offers that unique touch of nature to any space. Turnbury, with its soft earthy hues, exudes a rustic, luxurious surface. Shaw now offers not just a designer look of nature, rather a truly authentic and generational touch of Mother Earth. The tumbled travertine with a subtle rounded edge comes in a 3×6 " and a 4×4 ". Use this line to add that worn element of nature to your home environment.

Mosaic

Brick Mosaic

Multi-Color Color 101

Premium Grade

Select Grade Majority of the surface is pure with the color remaining relatively consistent throughout the product. Small amounts of discoloration may be seen in a few select tiles. Select Grade offers some color variation and slightly larger pits than Premium Grade.

Classic Grade Discoloration and imperfections are more pronounced and variation in shading / color exists throughout product. Classic Grade offers high variation from tile to tile and the largest pits.

It is important to note that any natural stone hard surface flooring can become slippery when wet or improperly maintained. Unless specifically stated by Shaw Industries, Inc. the use of Shaw Industries, Inc. natural stone is not recommended for exterior horizontal surfaces.

This product can be used in interior wet areas if sealed and maintained properly. The stone look could be altered if not maintained properly. For information about products that can protect the stone from moisture exposure contact your local Shaw hard surface territory manager.

This product may contain dry seams, pits, fossils and glass veins that are filled at the factory or during installation. These are all inherent characteristics of the stone. Since these veins can sometimes lose their fillings, they should be refilled as part of normal maintenance.

A sealer is recommended for all natural stone products.

Note: Natural stone is a product of nature, hence variations in shade and appearance are inherent. Veining and mineral deposits create unique characteristics per stone. Please consider at the time of purchase... No Two Stones Are Alike! Installation constitutes acceptance.
