

Mixed Up │ stone, glass & metal mosaics

Mixed Up

Features

Let your mind wander through the possibilities of design with the versatile collection of "Mixed Up" mosiacs. An array of stone and glass blends in three sizes as well as an assortment of stone, glass, and metal mosaics in random withths and lengths. Options include marble, travertine, slate and stone blends all mixed with various colors of stainless steel and brushed aluminum. These blends create spectacular optical effects, and any of them will beautifully turn a tile setting into a custom work of art. It's a luxurious designer look!

- Stone and glass blends: 11 color pallets in 3 mosaic sizes: 5/8" x 5/8" Mosaic, 1" x 1" mosaic, and random linear mosaic (narrow rectangles of varying lengths)
- Stone, glass, and metal blends: 5 color palettes in random widths and lengths mixed together

Color Palettes:

Glass and Tumbled Stone

(travertine and marble)

- 100 Snow Peak—Winter-white marble, with crystal and frosted glass in the palest greys; overall effect is very light
- 200 Dune—Tumbled travertine in washed sandy tones, glass accents in beiges; overall effect is sandy neutral
- 270 River Bed—Emperador dark marble with touches of crystalline veining, classic travertine in earthy beiges, glass in rich beiges and browns; overall effect is balanced with mix of darks and lights
- 700 Dakota—Emperador dark marble in deep browns and ebony, with rich taupe veins; glass in deep beige to mediumbrown; overall effect is dark neutral
- 720 Canyon—Emperador light marble in pale bone to light beige and grey; crystal and frosted glass in pale greys, beige, and soft brown; overall effect is medium neutral with darker accents
- 900 Black Hills—Deep charcoal marble, crystal and frosted glass in greys and ebony; overall effect is dark

Glass and Slate

- 200 Denali—Glass in sandy beiges, stone in medium greys with rust veining; overall effect is medium neutral
- 230 Spring Valley—Glass in cream, olive, and grey; stone in greys with rust veining; overall effect is balanced with mix of darks and lights

Glass and Tumbled Stone (continued)

- 500 Pikes Peak—Glass in very pale and medium grey, stone in greys with caramel veining; overall effect is balanced with mix of darks and lights
- 650 Crested Butte—Glass in dark cream, caramel, and medium brown; stone in greys with rust veining; overall effect is balanced with mix of darks and lights
- 750 Piedmont—Glass in browns and chocolate, stone in greys with rust veining; overall effect is dark neutral

Metal, Stone, and Glass

Brushed Aluminum

- 575 Pewter—Shades of cool and warm grey, eye-catching brushed texture
- 775 Brushed Suede—Warm taupes and browns mixed with grey and brushed aluminum

Stainless Steel

- 350 Skyline—Quartzite in greys, rusts, and greens; textured surface that contrasts with glossy glass in cream, grey, and charcoal; stainless steel accents
- 550 Midnight—Black and dark grey marble mixed with white, grey, and black glass; stainless steel accents
- 750 Dusk—Taupe and brown marble combined with grey, brown, and white glass; stainless steel accents

*OSHA (Occupational Safety and Health Administration) has established a recognized industry standard of 0.5 (wet and dry) for slip-resistant surfaces. The Americans with Disabilities Act (ADA) recommends, but does not require, "a Static Coefficient of Friction of 0.60 for accessible routes and 0.80 for ramps." ADA does not specifically state that 0.60 is both a dry and a wet requirement. It is important to note that any tile or other hard surface flooring can become slippery when wet or improperly maintained. Products installed in an exterior application must comply with applicable ANSI 108 series of the "American National Standard Specifications for the Installation of Ceramic Tile" and comply with TCA installation methods applicable to installation conditions.

Approved Usage

Mixed Up 5/8" Mosaic

200 Dune

700 Dakota
