

**Breton** | *laminates*

297 Champagne

550 Caviar

886 Truffle

## Features

Breton's "limed," or white-filled, hickory visual is inspired by European styling and is excitingly versatile. It's perfect for the growing trend of combining traditional with modern—because the limed look has a vintage charm that makes a real statement in urban and contemporary settings. Of course, Breton works beautifully in traditional or transitional rooms, too.

Three colors range from dark charcoal to light honey-brown, with a warm, rich cognac in between. The white fill creates high contrast with these vibrant colors. And a low-gloss, smooth surface allows Breton's natural colors to show through, highlighting the grain for additional visual interest.
