Features

Inspired by the mellow, old oil-rubbed floors of Europe, this white oak visual will be beautiful in urban settings. Like trending hardwoods, Canterbury transcends the usual style boundaries and labels—it's not only modern and cutting-edge but classic and sophisticated. So its aged look is dynamic in contemporary as well as traditional rooms. And the low-gloss, smooth texture adds to its richness and elegance.

Colors are cream, taupe, wheat, walnut, and a rich red. Three are forward-trending and two are more classic.
